GLENDALE WINS FIRST

MONEY PRIZE AND CUP BESTOWED ON CITY'S ENTRY AT ROSE TOURNAMENT

New Year's day dawned bleakly with suggestions of rain which dismayed the holiday throngs bound for Pasadena by trolley and auto, but nature relented and became mild, keeping her clouds to lightly veil the sun and making conditions all the better for sightseers. They were there by the thousands. About four abreast in a densely packed mass of autos that crept in from the big bridge into Pasadena. Progress was slow, but those who started early got there and felt repaid by what they saw.

The parade may have been longer in some previous years, but all agreed it had never been more beautiful than it was on Thursday. Glendale citizens were there in great numbers and very much delighted with her showing in the tournament. That they had reason to be proud was demonstrated when the tournament judges awarded to her the first premium of \$100 in cash and a handsome cup.

The entry pictured a scene representative of Glendale. The valiance or skirt of the big float was of the beautiful Catalina cherry which is growing on Colorado and Verdugo Road and which was gathered by the City Forester in his tree pruning. The main platform represented the valley ascending to the mountain, which formed its background and which occupied the rear of the float. This mountain was most cleverly fashioned, and looked quite the real thing even in its undress of moss before the floral covering was added. When that was placed it rose in beautiful pinnacles of purple violets, capped with the snow of white carnations. The plain at the foot of the mountain was graced with real turf in which a few real orange trees were growing and well toward the front of the float was a spacious house of flowers. The spreading eaves were lined with smilax. The roof was of red carnations, the walls of yellow chrysanthemums and orange.

P. E. CAR CATCHES FIRE

The firemen of Station No. 1 responded to a call at 7:10 Thursday evening from the tracks at the rear of the P. E. station. A car short-circuited had caught fire. The blaze was quickly extinguished with minor damage.

It will pass from Glendale Avenue on Broadway to Brand Boulevard, and South on Brand to San Fernando Road. Thence north on Brand to Doran, and south on Brand to Broadway.

ANNUAL MEETING

CENTRAL CHRISTIAN CHURCH MEMBERS HOLD USUAL NEW YEAR'S EVE GATHERING

For several years it has been the custom of the members of Central Christian Church to hold a roll-call meeting on New Year's eve, when reports of the various department heads and officers should be read, officers elected, the roll of members called, a program and refreshments enjoyed and the New Year finally welcomed. This order was fully carried out Wednesday evening and there was not an idle minute. John M. Ray presided at the meeting, which was called to order at about 8:30. Reports of the financial secretary, treasurer and missionary treasurer were read, showing that the church's finances were in good condition as \$200 more than the budget called for had been raised.

The C. W. B. M. Auxiliary was shown by the report of its president to be in fine condition, and that a large sum had been raised the past year. The report of the Ladies' Aid was quite interesting, as it showed the work done for the church and for others the past year and that a little over \$1000 was on hand toward a new church building. The Sunday School superintendent read his own report and those of the secretary-treasurer and department superintendent's. The work is in a flour-

DINNER DANCE

ELKS WELCOME NEW YEAR WITH BIG AND HILARIOUS FUNCTION

The big dinner dance—long anticipated—came off at the Elks' Club House Wednesday evening according to schedule. The dinner was a turkey feast with all the proper accessories and long before the day arrived reservations had been made for the 250 plates arranged for. While it was being enjoyed a program of cabaret music was given by "Blondie" Clark's orchestra, and guests danced at their pleasure. The balloons which were conspicuous in the evening's entertainment were given away here and following the dinner guests adjourned to the ballroom where they were joined by others who had not been able to secure dinner reservations. Serpentine in rainbow colors was a feature of the typical New Year decorations. It was a brilliant scene, many of the men being in full dress and the ladies in very handsome party gowns.

At eleven o'clock the customary toast to the absent was given by Exalted Ruler Cameron Thom and following the toast a program of new songs was given by "Blondie" Clark's entertainers, which was greatly enjoyed. All guests were then provided with serpentine, confetti and horns and when the clock began to strike the hour of twelve pandemonium broke loose in a noisy battle of confetti and serpentine in which all joined without thought of dignity and which lasted for half to three quarters of an hour. At one o'clock a buffet supper was served in the jinks room, where the fun continued, and after that those who were game returned to the ballroom and danced until the lights were ordered out at 2:30 o'clock. In many respects it was one of the greatest functions that has ever taken place in the Elks' Club House.

WATCH NIGHT MEETING

PRESBYTERIANS HOLD CONTINUOUS SERVICE WEDNESDAY EVE.; GREET NEW YEAR

A majority of the members of the First Presbyterian church held a watch night meeting on New Year's eve. It began with a supper at 6:30 and then followed the prayer meeting service, which lasted until about 9:30, and was taken part in by a large number of worshippers. From 9:30 to 11:15 was a social season, during which new members were greeted and old friends chatted with. At 11:15 Rev. Edmonds took charge of the meeting, reviewed the work of the past year and exhorted to renewed activities during the year to come, closing with the universal prayer heard "around the world," and then the New Year was ushered in.

FOOTBALL SCORE SURPRISES

Glendale football enthusiasts who could obtain tickets attended the great New Year game at Pasadena and joined with the vast crowd gathered for the occasion in cheering the many brilliant plays pulled off. Practically all of them expected Harvard to win by a large score and were vastly surprised at Oregon's wonderful work in holding the points down to a 7 to 6 figure, since their opponents had won the Eastern championship over some exceedingly strong rivals.

THE 1920 CENSUS BEING TAKEN

The 1920 census enumerators began their work in Glendale and all the rest of the United States and its possessions this morning. Their work includes not only population, but every variety of information regarding the country's resources and industries. None of the information secured will be given out before June 1. All citizens are required to answer truly every question asked by the enumerators on pain of arrest and fine.

(Special Service to Glendale Evening News)

At the conferences plans were laid for re-opening treaty discussions when the senate meets Monday, and compromise proposals were discussed. Senator King urged Senator Hitchcock to accept proposed compromise resolutions which he said had received the approval of mild reservationists.

TO CONBAT BOLSHEVIK INFLUENCE

BRITISH MILITARY EXPERT WARNS THAT ROAD TO INDIA IS OPEN TO RED PROPAGANDA

(Special Service to Glendale Evening News)

LONDON, Jan. 2.—General Maurice, British military expert, in the Daily News declared the road to India is now open to Bolshevik propaganda which now threatens to open communication with the entire east. The situation was considered more precarious by reason of the announcement that soviet armies have entered Bokara—the gateway to Afghanistan. General Maurice declared: "An immediate policy" should be adopted to prevent further extension of the red sphere of influence in countries now under British control.

ALIENISTS CALLED IN NEW TRIAL

INCIDENTS IN LIFE OF DEFENDANT MADE BASIS OF HYPOTHETICAL QUESTION TO DETERMINE SANITY

(Special Service to Glendale Evening News)

LOS ANGELES, Jan. 2.—The life of Harry New passed in review today before the court and jury which will determine his guilt or innocence of the murder of Freda Lesser.

Convening at nine o'clock, an hour earlier than usual, the session was given over to the reading of a lengthy hypothetical question to eight alienists who will tell whether or not in their opinion Harry New was a sane man or a lunatic when he is alleged to have murdered Miss Lesser, in Topanga canyon.

The question emphasized three main allegations as a basis for the insanity theory. These allegations were based on testimony and were: That Harry New is an illegitimate child; that he brooded over his alleged unsanctioned birth; that he is of a family with a history of insanity on his mother's side. At one point the question referred to United States Senator New of Indiana as Harry's father but for the most part it was merely "the father." After laying this basis the question began reviewing detail by detail every incident referred to in the testimony or in the thirty depositions which had been read at the trial. It recited how Harry New is alleged to have kept snakes as pets; how he brooded and stared for hours; how mothers were alleged to have objected to his association with their daughters, and all of the countless other incidents and allegations brought out in the testimony. During it all New sat unmoved and with his attitude not in the least indifferent from other days.

After reviewing all the many incidents of New's life, the question led up to the death of Freda Lesser. It recited in minute detail how New is alleged to have confessed that he "lost his head and shot her" in Topanga canyon the night of July 4.

PRISONERS WITNESS HANGING IN CHICAGO

GOVERNOR LOWDEN AND CLUB WOMEN PROTEST, BUT TO NO AVAIL

(Special Service to Glendale Evening News)

CHICAGO, Jan. 2.—As a "moral lesson" two hundred prisoners in the county jail today witnessed the hanging of Rassalo Durrage from cell windows facing the scaffold in the courtyard. Governor Lowden and many Chicago club women had protested against the prisoners watching the hanging. The telephone was disconnected to prevent receiving a last minute reprieve. A few of the prisoners turned away when the trap was sprung but the majority watched unflinchingly. The only comment among the prisoners was when a man yelled "When do we eat?"

"RED" ACTIVITIES IN CHICAGO

ARREST OF 278 ALLEGED REVOLUTIONISTS TO BE THE SUBJECT OF GRAND JURY INVESTIGATION

(Special Service to Glendale Evening News)

CHICAGO, Jan. 2.—A grand jury investigation of "red" activities is being planned by State's Attorney Hynes following the arrest of 278 alleged revolutionists in 300 raids within the last twenty-four hours. Hynes stated he believed he had sufficient evidence to deport or imprison every man caught.

FIFTY HAPPY YEARS

MRS. R. M. BROWN IS HOSTESS AT GOLDEN WEDDING OF HER PARENTS

Mr. and Mrs. R. M. Brown of 416 North Kenwood street had an unusual treat in the opportunity to be host and hostess at the celebration—which took place Tuesday evening at their home—of the fiftieth anniversary or golden wedding of Mr. and Mrs. J. K. Hill, the parents of Mrs. Brown. It was strictly a family affair but not a small one, for nineteen were present. All the children of Mr. and Mrs. Hill were there except one son in Minneapolis. The celebrants were the recipients of several telegrams and letters of congratulation and a number of gifts. They were married at a town near Waterloo, Iowa, where they lived until they came to California five years ago. Those present at the gathering which was an entirely informal social affair were Mr. and Mrs. J. K. Hill, their oldest daughter, Mrs. Charles Crane, her husband and son Harold, who is now a student in Pomona College; Mr. and Mrs. Frank Hill of Hollywood, and their two daughters, Miriam and Catherine Hill; Mr. and Mrs. H. G. Lyndon, of Clear Lake, Iowa, parents of Mrs. Frank Hill and old friends of the honoree; Mr. and Mrs. V. M. Hollister of Glendale; the host and hostess and their daughter, Margaret Brown. The Brown home was beautifully decorated for the occasion with poinsettias and asparagus fern, and refreshments were served.

THE NEW HOSPITAL

GLENDALE POST AMERICAN LEGION NOT IDENTIFIED WITH PROJECT

Editor Glendale Evening News: Dear: In your issue of December 27th an article appeared stating that a stock company had been formed for the purpose of erecting a hospital in Glendale. Said hospital to bear the name of the "Glendale Memorial Hospital" in honor of Glendale's service men. The article stated that "the project has so far met with a most enthusiastic reception by all to whom it has been proposed."

In this connection the ex-service men of Glendale as represented by the Glendale Post, American Legion, wish to make their position clear to the citizens of this city. So far as we know none of the service men were consulted as to the advisability of using their name in furthering a business enterprise. Had the service men been consulted beforehand, a misunderstanding of this nature could have been avoided.

This hospital is not to be a free institution in any sense of the word, neither is it to be a benevolent affair as the word "Memorial" would seem to indicate. Therefore, although stock is to be sold on the open market, the undertaking is for the avowed purpose of making money.

The executive committee of Glendale Post No. 127, American Legion, meeting Tuesday evening resolved to voice the strongest protest possible against any such commercializing or capitalizing of the service men's name. We believe that our friends in Glendale will be quick to see the justice and wisdom of our stand.

If the American Legion is to be the power for good in this country which we hope to make of it, we must be exceedingly careful in selecting the projects which we will support.

So far as the hospital undertaking itself is concerned, we are heartily in favor of such an institution being brought to Glendale, but let it stand or fall on its own merits.

Glendale Post No. 127, American Legion, Executive Committee.
BY Dru W. Nichols,
Chairman.

SO. DAKOTA MAN BUYS GLENDALE HOME

Pat Dillon, who visited Glendale in former years and who has been looking over Southern California with a view to locating, finally decided that Glendale looked best to him, so he bought Lewis Clouse's seven-room modern bungalow at 442 Patterson Avenue and has moved in. Mr. Clouse moved to a place he owns on Orange Grove Avenue.

F. C. MERRICK LEADS

F. C. Merrick of the Glendale Furniture Company was the first man today to pay \$5.00 for a year's subscription in advance for the Evening News. Mr. Merrick said he had intended to get in under the old rate, but neglected to do so, but feels sure that the Evening News force will make good use of the additional money paid.

DAVID HARTLEY DEAD

END COMES PEACEFULLY AFTER ALMOST EIGHTY-THREE YEARS OF USEFUL LIVING

David F. Hartley died Wednesday evening at 4:45, after an illness of nine weeks of bronchial pneumonia and kidney trouble. His faithful wife, one son, one daughter and three grandchildren were with him when he drew his last breath.

Deceased, whose full name was David Franklin Hartley, was born near Johnstown, Kentucky, July 10, 1837. When he was two years old the family moved to Jefferson County, Ill., where he grew to manhood. February 3, 1856, he married Miss Amanda Dolins, whose brother had previously married his sister. Two children were born to Mr. and Mrs. Hartley before he was old enough to vote. In March, 1865, the family started across the plains, by wagon train, to Oregon, reaching their destination, Salem, in the Willamette Valley, in just six months. Mr. Hartley took up some government land and devoted himself to farming. In 1878 he sold his farm and moved to Klichit County, Wash., near Goldendale, where he took up gardening and fruit raising, in which he was very successful.

He took the highest prize on his produce at the Lewis & Clark anniversary.

SCHOOL LUNCHEES

MESDAMES YARRICK AND HENRY TO TEST OUT SERVING OF HOT DISHES

Two members of the Columbus Avenue Parent-Teacher Association are determined to prove that it is practicable to provide at the school houses something hot for the lunches of children who do not go home at noon, even though regular equipment for that kind of thing is lacking. These ladies are Mrs. H. W. Yarrick and Mrs. H. V. Henry. They will open their program next Monday noon at the Columbus Avenue school where they are starting out very simply with rolls and hot chocolate one day and rolls and hot soup the next. These two articles will be served for five cents a helping. The ladies are convinced that only a test will enable them to determine whether it can be done or whether there is sufficient demand (as they believe there will be) to justify the effort.

Meanwhile the women of the Columbus Avenue Association are standing back of them ready to lend a helping hand later if the experiment leads to something permanent, and also ready with sympathy and interest.

SERVICE MEN ACKNOWLEDGE GIFT

The Richard Gridley Chapter of the Daughters of the American Revolution is in receipt of a most appreciative letter from the Glendale Post of the American Legion acknowledging the receipt of a Christmas gift of a handsome chair for the post headquarters. The letter was postmarked December 30th, and reads as follows:

Mrs. Mabel F. Ocker,
Secretary, General Richard Gridley Chapter, Daughters of American Revolution.

Dear Mrs. Ocker:—
On behalf of the Glendale Post of the American Legion, I want to thank the General Richard Gridley Chapter most sincerely for its elegant present. It is the first article given us to make our club room more comfortable and you do not know how we appreciate it. It is cheering to us to know we have your support still and although we are no longer in the service we are going to continue to fight the enemies of our country.

The American Legion stands firmly for law and order and will abide by law as quickly as to fight for the suppression of its violators.

Very truly yours,
Carlton T. West.

FORMER VISITOR RETURNS ON HONEYMOON

J. R. Goodwin, a prominent business man of Abilene, Kansas, and a member of Rev. C. A. Cole's congregation when he was pastor there, spent last winter in Southern California, making frequent visits to Glendale. His little son was with him and while here was baptized into the church by Rev. Cole. Mr. Goodwin arrived in Glendale again yesterday to visit Rev. Cole, this time with a new wife. They will spend their honeymoon in Los Angeles vicinity.

LIVE GOOSE SENT BY PARCEL POST

A live goose was received at the Glendale postoffice Wednesday, consigned to E. R. Werden of Eagle Rock. It came from Brawley in an open crate and seemed to be quite at home. Just a week before a similar shipment came for another Eagle Rock resident from Brawley. Chief Clerk Hallett said that the postal laws do not allow the shipment by parcel post of any living animal or bird except baby chicks, and these only for limited distances. But he said that after such a shipment is received by a postmaster it has to be sent on, and the office receiving the package is blamed.

NEW YEAR'S EVE DINNER

Mrs. Thomas Curtis of East Palmer Avenue entertained with a delightful function New Year's eve, her guest list including neighbors and close friends and their children. The fore part of the evening was given to games in which old and young could participate, and at 10:30 a big chicken dinner was served, after which the gathering awaited the coming of the infant 1920, who was greeted in the usual happy fashion. Mrs. Curtis' guest list included Mr. and Mrs. Peterson, Mr. and Mrs. George Mudgett, Mr. and Mrs. Edward Strong, Mr. and Mrs. Frank Metch and the children of the several families.

NEW YEAR'S GIRL

Mr. and Mrs. Edward Stultz of Venice evidently have a warm regard for Glendale since they chose this city to be the birthplace of their 9-pound daughter born New Year's morning shortly after the clock struck twelve at 519 East Palmer Avenue, this city. The little girl has been named Edra Louise. She has a brother nine years of age.

The club women of Monrovia worked at scrubbing, washing, selling junk, and other kinds of menial labor, to earn money to pay the debt on their club house. Some men might hoot at them for it and say the women wouldn't do that kind of work except for some ethereal motive like a new club house. But bless your hearts, old man, your own wife works just like that every day and harder, for you, for only her keep. As she could earn more than that at most anything else, what do you call that but an ethereal motive? Didn't know before that you were an ethereal motive, did you? Most men don't look like one, sure.

All loyal Los Angeles folks are now busily trying to make two residents appear to the census taker where only one appeared before to help Mayor Snyder keep from losing that hat that he bet on L. A. having 700,000 population.

A Long Beach clothing merchant predicts another \$15 jump in the price of men's suits. About one more jump is all men's suits will need to keep the old tweeds on deck for another six months, which is the best way to bring down prices anyway.

DATE CULTURE

W. C. CUTLER PREDICTS WONDERFUL THINGS FOR INDUSTRY IN CALIFORNIA

W. C. Cutler, the inventor, who resides at 1327 North Louise Street, has been busy developing new things and on Tuesday put in application for four patents. But Mr. Cutler is interested in novelties that are not of a mechanical nature, as has already been indicated in the columns of the News. Date culture is one of the things that is interesting him greatly. He began his investigations along that line about twelve years ago and planted orchards which he has since sold, but his enthusiasm is just as keen. He declares that in the line of horticultural discovery have greater things been accomplished than in the propagation of dates and speaks in the highest terms of Professor Drummond, representative of the Department of Agriculture who is at the head of the stations established by the government at Mecca, India and Coahuila. Professor Drummond was his guest recently and Mr. Cutler is therefore well posted in regard to the latest accomplishments.

There are, Mr. Cutler says, 176 known varieties of edible dates and not less than one hundred of these varieties have been planted and maintained by the government at these experimental stations with a view to determining the best. The Deglet Noir thus far stands at the head. Dates are propagated in two ways, by seeds and by off-shoots. The seedlings can not be depended upon to be true to type. The off-shoots which the palms begin to throw off when about three years old, have been difficult to root and slow to establish, requiring careful nursing, but Professor Drummond has so revolutionized methods that these off-shoots can now be rooted and ready for transplanting in sixty to ninety days. This is of tremendous importance to the industry.

Another difficulty—this time in connection with the marketing of the fruit—has been overcome by Professor Drummond, which is of incalculable value to the industry. All dates must be processed before they can be placed upon the market. The professor has worked out a method of ripening the fruit on the palm artificially so it will all be ready at one time and of processing it upon the tree. It can then be picked and packed without extra handling which means an immense saving of labor and equal improvement in the quality of the product. His method of processing is very fine and the fruit is pronounced wonderful—far ahead of anything heretofore produced in the date line. So great is the demand that it is all absorbed (before the crop is ever gathered) by government officials who are in touch with the work and by magnates like Rockefeller who are ready to pay several dollars a pound for all they can get.

There was a meeting about a month ago at the date packing house in the Coachella Valley, which was attended by Dr. Swingle, Professor Mason and quite a number of other officials of the Department of Agriculture who are thoroughly acquainted with date production in Arabia and other parts of the globe, and they agreed that the dates of California produced in the Coachella Valley, properly ripened and processed, are the finest in the world, and that a big future is in sight for the industry.

Glendalians are already interested in this prospective money-maker for California on land that was once considered next to worthless. Other residents of the city besides Mr. Cutler have invested in orchards, the list including Professor Harry Howe, Mr. and Mrs. Thomas Ogg, and Frank M. Echols.

TUJUNGA

Water developments submitted by Engineer Harry M. Lynch of Glendale for the broadening of the Haines Canyon system call for an expenditure of about forty thousand dollars during the next three years to keep ahead of the rapidly developing community here. For the immediate present two new reservoirs are to be constructed this winter. The second booster plant will be a permanent one and will be located at about the 1700 foot elevation, in neighborhood of Cedar street. The booster engine now used at the well will be moved up to the Cedar Street plant. At the well plant a triplex booster engine will be installed. The ten-inch line will be continued up to one of the new reservoirs above Fairview avenue and provide for delivery of water pumped from below all over the district at points under the 1900-foot level. This will remove the load from Haines canyon in the middle of summer. The work for this season in total to meet immediately all demands will approximate about twenty thousand dollars.

There was a slight accident to the Richardson stage on Christmas morning when it collided with a large car on the Verdugo road. But for the prompt action of Mr. Rice the driver, a most serious accident would have resulted. Mrs. Leighton of Tujunga was thrown from the stage, alighting on her back. She was taken to Los Angeles, where it

FORTY YEARS AGO

DISASTROUS FREEZE ON NIGHT OF DECEMBER 28, 1879, THE WORST KNOWN IN SOUTHLAND

The remarkably beautiful weather of the last week in December, 1919, moved B. F. Patterson, one of the pioneers of Glendale to reminiscences of early days and the weather at that time. He came to what was to be Glendale in 1882, and people were still talking of the severe winter of three years previous. On the night of December 28, 1879, there was a heavy hard freeze. Young citrus trees by the hundreds of thousands were killed. It was told that in a Riverside nursery, out of 100,000 year-old orange trees, 95,000 were frozen to within an inch of the ground. Elizabeth Lake was frozen over for the only time in its history. Glendale had no citrus groves at that time. The present site was covered densely with live oak and sycamore trees, with here and there a one-room shack. There were five or six substantial houses, one of them Mr. Patterson's, but that has been moved and so built over as to be unrecognizable. In 1883 the two-story house near the corner of Glendale Avenue and California Avenue was erected by Mrs. Alice T. Byram, who still lives in it. This house has not been changed in any particular from that day except by painting.

The nearest approach to this disastrous freeze was in 1913, when many thousands of citrus trees were killed by the cold weather.

Occidental College has a freak student who is smarter at thirteen years of age than most people are at thirty. He laps up learning just like a pup does milk. His folks had to hold him back to keep him from entering college at eleven years of age instead of thirteen. In a way it's interesting to read about such marvels, but we've always felt just a little more comfortable without one in the family. We'd rather have just old-fashioned kids, that study if they have to and get out of it if they can. They may start slower, but we believe they'll get farther.

Santa Ana has been hauling trash free from the back yards of the residents there, but some of them were riding a free horse to death, with the result that no resident will have more than ten cubic feet of trash hauled free. All in excess of that will be charged for, which will call for a loud wail from the moochers.

At the risk of causing a big drop in the price of eggs and poultry, we will mention that the largest electric hatchery in the world is now in operation at Norwalk.

Long Beach has voted out boxing exhibitions, and the few dozen pugs down there think the other 50,000 or 60,000 people of the town are all crazy.

was found that aside from a shaking up she had escaped serious injury. No blame was attached to Mr. Rice, the driver, the other parties were coming around the curve on the wrong side.

Services for the mother of Mrs. C. C. Niemeyer who passed away at the County Hospital on Wednesday, December 24, were held in Los Angeles on Friday, with interment at Inglewood.

Mrs. E. D. Smith and son, Eugene, from Berkeley were in the village for a few days looking after their property interests here.

Miss Julia Culver has rented Miss Pasco's house on El Centro for the winter.

Mrs. Wilmot Parcher has gone to Monte Bello for a few weeks' rest with her friend, Mrs. Jackson.

Dr. Kearney and wife have been at their home for a few days' vacation, returning on Tuesday. They are very proud of the fact that they are grandpa and grandma to a charming baby girl who was born to their son, Robert and wife, the week before Christmas.

One of the force of salesmen of the McComas wholesale dry goods store in Los Angeles has rented the home of Miss Buford on Stephens way and will make his home here this winter. He has purchased two lots and will build later.

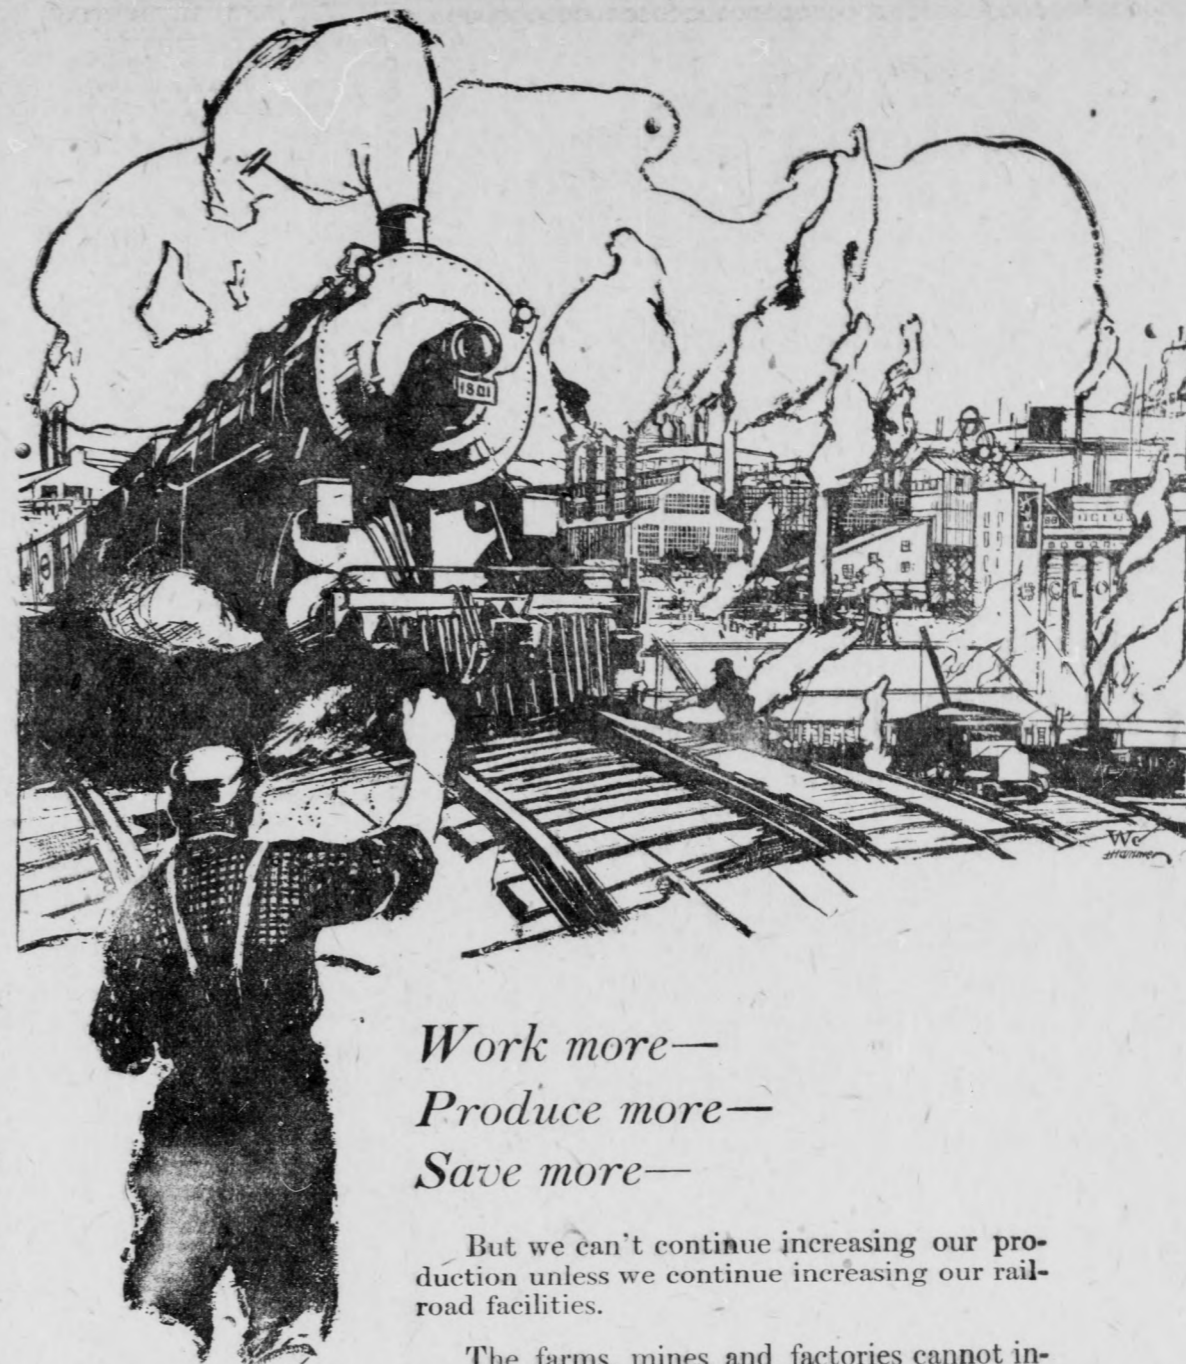

Dr. Brown of Haines Canyon road has sold his place this week, also Miss Georgia Shaw who purchased the former Woodrow place on Pine Street, to Mrs. Manly of Pomona. At the same time Miss Shaw purchased the Batchelder place on Sunset Boulevard, as she wishes to remain with us.

Miss Lois Wieman was home for the holidays, from her school near Bakersfield.

Miss Jessie Dunning, who has been ill for sometime, is improving.

Work more—
Produce more—
Save more—

But we can't continue increasing our production unless we continue increasing our railroad facilities.

The farms, mines and factories cannot increase their output beyond the capacity of the railroads to haul their products.

Railroads are now near the peak of their carrying capacity.

Without railroad expansion—more engines, more cars, more tracks, more terminals—there can be little increase in production.

But this country of ours is going to keep right on growing—and the railroads must grow with it.

To command in the investment markets the flow of new capital to expand railroad facilities—and so increase production—there must be public confidence in the future earning power of railroads.

The nation's business can only grow as fast as the railroads grow.

MAKE UP YOUR MIND NOW TO PROSPER

Did you ever stop to think that in order to prosper, in a given undertaking, you need only follow a couple of very simple rules?

It's a fact!

Believe in yourself and your business all the time, and

Work always with that belief before your mind.

You may possibly believe a thing and not keep it constantly in mind, but keep this belief there, for it is the basis of your success.

Redondo Beach has found that while she was voting bonds and drawing plans for the repair of her pleasure pier, the cost of the work went up \$15,000. While she is voting bonds for the \$15,000 the cost of the work will probably take another \$15,000 jump. Looks like the only way to catch up with the price would be to vote about three times as much money as anyone thinks the work will cost.

The Ontario Report tells of an auto thief at Pomona who was about to steal an auto standing in front of a store there, but changed his mind and decided to not burden his soul with the crime. The reason was not that he wanted to be honest, but that he found the owner's wife sitting back in the dark corner of the car, when he got in to start it, and he decided that he didn't want to start anything he couldn't stop.

The recent paper famine was so serious in Los Angeles that the big dailies had to cut the size of their papers, had to print important world news in two-inch paragraphs, and even had to abbreviate the rotten reports of the Harry New murder trial to only six or seven columns daily.

Hermosa Beach threatens to build a large amusement auditorium at the entrance to her pleasure pier if visitors don't quit flocking down there in such numbers.

The Santa Paula Chronicle handed the school board of Fillmore a jolt the other day. The Fillmore board wrote to the Chronicle and other nearby papers, asking them to bid on the printing of the school annual there. Editor McPhee believes in keeping home trade at home, however, especially when the home business men can handle it, and he wrote the school board that he would not bid on the work, as they had a first class printing office there that was not only loyal to the town, but that made reasonable charges for printing and he advised them to give their home office the printing without quibbling over the technical bids that the law calls for.

A little boy at Monrovia found a pocketbook containing \$150 while on his way to Sunday School the other morning and immediately hunted up the owner and had the double pleasure of getting a dollar for it and missing Sunday School at the same time.

The Hemet Chautauqua, says the News, was a great financial success, clearing \$3.22. The great success lay in the fact that it usually loses a couple of thousand.

Don't Cut Down on the Bread

This is Dr. Wiley's advice. Read what this pure food expert says about bread:

"There is a popular fallacy in favor of meat. Meat contains 60 per cent water and costs 25c a pound. Bread is only 40 per cent water and costs 5c a pound. There's more energy in a pound of bread than in a pound of meat. Hard workers need bread more than meat. If the cost of flour makes bread rise, cut down on the meat. Bread is the cheapest food known.

Follow Dr. Wiley's advice and eat more bread.

Who won the war? Answer—The Smiths, Johnsons and Greens won the war. The records show that in the American Expeditionary Force there were 51,000 Smiths, 39,000 Johnsons, 22,500 Joneses, 22,000 Greens, 10,500 Sullivans, 9,000 Browns and 4,500 Cohens. There were 74 George Washingtons, 79 Robert E. Lees, 2 U. S. Grants, 2

ANNUAL MEETING

(Continued from Page 1)

ishing condition and the finances on a sound basis. Of the offerings of the past year \$322 was for supplies and \$375 for others. A very comprehensive report was made by Pastor C. A. Cole of the work accomplished during the past year. There has been an increase in the membership and the work in all departments is well in hand. He stressed the great need of a new building and asked for the continued co-operation of all the membership in the year to come. Perhaps the most important report of all was that of the building fund committee. This told of the success of the past year in the drive for subscriptions to the building fund and closed with recommendations that steps be taken at once to secure a loan from the church extension board; that the official board of the church at its next meeting appoint a building committee of five members; that this committee have plans prepared for a new building and if said plans are approved by the board, that it proceed to let the contract for a building to cost in the neighborhood of \$30,000 when the sum of \$15,000 in cash and pledges has been secured. This report was approved by unanimous vote. The roll call followed, all members responding.

The program that followed was very much enjoyed. Miss Garnet Peters gave two humorous readings, Misses Amelia and Catherine Weisling sang a duet and Miss Birdie Shropshire gave two comic readings that brought out an enthusiastic encore. Homer B. Miller was then introduced by the chairman as a magician second only to the great Herman, and he proceeded to mystify the audience with several tricks. He mixed a Welsh rarebit in a tin vessel, borrowed a hat and a handkerchief from people in the audience, placed the latter in the hat after pouring inflammable oil over it, lighted it and cooked the rarebit over the flame for a moment, then pulled from the vessel a very young rabbit. The disappearing ball, the making of a beautiful flag from red, white and blue silk handkerchiefs and causing designated cards to rise at his command, completed a program that was both puzzling and delightful. The "Backward Girls" was the last number. It proved to be six girls with their hair over their faces and comical masks on the back of their heads. Their marches and songs were very amusing.

Pastor Cole then called for all the charter members of the church present to rise and there proved to be 12 of them. Then those who joined under Rev. Utter's ministry, those under Rev. Francis' and then those under his own rose in turn. An appetizing lunch of sandwiches and hot chocolate followed and this brought the time up to almost midnight. The pastor then read a statement about the prayer which had been sent to every church and every mission station in the world to be repeated just at midnight of the dying year. He then reverently read the prayer and, as the bells and whistles began announcing the advent of the New Year, with an earnest, fervent prayer from his own heart.

Fully 100 people stayed to welcome the new year, and it was an evening of rare enjoyment to all.

FAMOUS HOSTESS HOUSE, HOTEL PETROGRAD, NOW CLOSED

PARIS.—With the American army a vanishing factor in Paris life, several aspects of the Capital are changing. Nowhere more than in Rue Caumartin. The American Y. W. C. A. Hostess House, Hotel Petrograd, has closed its doors after nearly two years of open hospitality, during which time 312,500 meals were served in the glass domed dining salon, and the narrow busy thoroughfare has lost its approximate American appearance.

Practically all army women have stayed at the Hotel Petrograd when on leave during the past two years. The one hundred and twenty-eight rooms at the Hostess House have been elastic enough, somehow, to take care of allied women working with the army. There have been nights when every chair in the salons were occupied by late comers.

The Petrograd is now to become an American Woman's Club which will serve as an information and guide center for American women who come over to find the graves of American soldiers.

It was in December, 1917, that the Y. W. C. A. took over this hotel, which had always been a haunt of English and American tourists. American women welfare workers were coming over, and the difficult conditions of living in Paris, closed hotels and scant coal, made it necessary that these workers should have a hotel of their own.

The first Y. W. C. A. group, Miss Mary Dingman, Miss Henrietta Roelofs, Miss Katy Boyd George, together with Miss Blanche Geary, and Miss Jean Cavers, ventured to take over the Hotel Petrograd, even though Paris might fail.

From the beginning the Petrograd has been filled with British and American war workers; it has never taken civilians. It was the center of the world to war working women during those darkest days that stretched from March to July, 1918. Women in every variety of uniform,

nal fair one year, receiving a sum of money, a gold medal and a diploma. In 1911 the aged couple moved to Glendale to spend their declining years, accompanied by their widowed daughter, Mrs. Anna Current, and her children, buying property on East Broadway. This they sold a year ago and bought a small house at 231 North Belmont, into which they moved January 2, 1919. And it was here he died. Mr. Hartley had followed his old avocation of gardening and fruit raising while living on Broadway until about six or seven years ago, when he had a leg broken in a runaway. He was never able to do much work of any kind after this.

Eleven children were born to Mr. and Mrs. Hartley and six are yet living. They are Mrs. Lauricet Payne of Weston, Ore., F. M. of Clarkston, Wash., A. D. of Glendale, Mrs. Edwin Callanis Moser of Yuma, Ariz., Mrs. Ellen Moser of Oregon City, Ore., and Mrs. Anna Current of Glendale. There are 23 grandchildren living, 24 great-grandchildren and one great-great-grandchild.

Mr. Hartley was an elder for 50 years. He joined the Baptist church in 1862 and was at once elected to the eldership. Twenty-five years later he transferred his membership to the Christian Church and was at once installed as elder. He continued at such till he came to Glendale.

Mr. and Mrs. Hartley celebrated their sixtieth wedding anniversary on February 3, 1916. The remains are at the Jewel City Undertaking Company parlors, where the funeral will be held Saturday afternoon at 2 o'clock, Rev. C. A. Cole officiating.

A society of girls is being organized at El Centro pledged to not dance with any man whose breath smells of liquor. That is, they won't dance with him twice. They would have to try each one once to smell him.

The South Pasadena Record says the end of the world which was to have come the other day didn't seem to slow down the speeders that burn up Fair Oaks Avenue. They stepped on her a little more, if anything, to meet the end half way.

the Red Cross, the C. A. R. D., the A. F. F. W., the Y. M. C. A., the B. E. D., S. W. H., the A. W. H., and all the other organizations, came to its shelter. And they came from Palestine, Russia, Rumania, Africa, South America, as well as from the countries and the armies of the Allies.

It was entirely a woman's hotel. It endured the bombardments undismayed, unterrified, and the nightly processions down to the cave following on the shrieks of the siren, will make an amusing moment when the tragedy of the war is written into comedy.

When Paris became a "leave area" for men and officers of the American army, the Hostess House took on more the appearance of a Hostess House in America; the khaki throng made it its own. Always the men knew where they could get an American square meal and the opportunity to talk with an American girl.

There are still two Hostess Houses remaining in Paris for the coming winter, the Oxford & Cambridge, on rue St. Honore, a home for permanent guests, and the Palais Royal on rue de Valois, near the Louvre, which has become a club for American women, and is especially famous for its teas.

Out in the provinces, where the Y. W. C. A. has had a dozen Hostess Houses at Tours, Bordeaux, Le Mans, St. Nazaire, Chaumont, Toul, and in Neuenahr, there are left only those at Coblenz and at Brest.

CITY Y. W. C. A. OPENS IN PARIS

The beginning of a typical city Y. W. C. A., as America knows it, were laid the other day when the American Y. W. C. A. in France took over the lease of a big building in the center of Paris on the rue Daunou.

Into the building, as soon as it can be ready, one of the Y. W. C. A.'s Paris foyers, or clubs for French girls, will be moved. This is the Vrilliere foyer, which takes its name, like a lot of things in Paris, from the street where it is located.

But there will be much more than just the foyer in the new Blue Triangle House. The project of this building is a joint one with the Union Chretienne de Jeunes Filles, a French woman's organization, which in many ways corresponds with the Y. W. C. A.

Miss Marguerite Jones of New York City, the present director of the Vrilliere foyer, is to be the executive of the new work.

Inexpensive restaurant facilities, rest rooms, gymnasiums, classes, lectures, and all kinds of club room good times, will be part of the program for the new building.

The project is a tangible result of the Y. W. C. A.'s Provisional Council, which is made up of French women working for girls, and American Y. W. C. A. representatives in France. The purpose of the Council is to put the work the American Y. W. C. A. had started in France in the hands of French women who would carry it on permanently after the Americans leave.

Santa Barbara county has nearly \$900,000 in her treasury, says the Morning Press. If she doesn't want to buy more than \$300,000 or \$400,000 worth of stuff with it, that ought to do her nicely.

Glendale is going to be proud of its

Acme Market No. 30

—you are going to have a market the equal of the best anywhere. Los Angeles itself might be proud of it.

—and you'll have a display of meats, of groceries, vegetables and fruits, and bakery products worthy of this modern market—prices too that will be eloquent of the modern merchandising back of this enterprise.

—just when will it open—you ask?

—seems hard enough to get good carpenters, painters, electricians, etc.

—and once you get them, seems equally hard to get them out—but they've done a mighty good job, and deserve praise for so quickly getting the building up and ready.

—we hope to be spick and span, and to have the formal opening the fifteenth of this month.

—you have something to look forward to—the opening of this modern Market—your Acme, and you will

—be glad you have an Acme near you.

1919-1920

We have tried to do all in our power for the accommodation of our patrons and cement the friendship formed and our increased business is certainly the best of evidence that our efforts have been appreciated by the public. Our policy is to give our customers every benefit of our banking facilities. We are interested in every man who has a desire to build up a legitimate business and we offer careful and courteous attention to those who give us their banking business. We invite you, at the beginning of this glad New Year to join our growing list of satisfied customers.

GLENDALE WINS FIRST

(Continued from Page 1)

ange colored calendulas, and in front of the mansion at a suitable distance was a pergola twined with smilax and roses. Not far away was a snow white fountain as of marble, in which a jet of water was playing. At the side of the house and through the valley ran a stream of real water which descended from the snow-capped peak, showing thus the source of Glendale's water supply.

It was beautiful; it was a concrete thing not simply a symbol; and the clever design—the creation of a city employee—was splendidly carried out. It meant work, however, especially at the last. Those who contributed service to give the final covering of flowers worked well into the night, and for a week previous the city employees, particularly Mr. Chobe and the men of the fire department, had been preparing the foundation of lumber, wire and moss.

Wednesday afternoon Fire Station No. 1 was a busy place. Seated at tables in the rear of the room were girls and women mounting flowers on toothpicks so they could be placed on the float, over which the men who were trimming it clambered with great agility. Those present were: Mr. and Mrs. Chobe, Chief Lankford and Mrs. Lankford, Captain Wagon, Mr. Nelson, street superintendent, and his son, Elmer Nelson; Officer R. L. McLain, Mr. Watson, City Manager; Mr. Phillips, head of the public service department; George Hartley, and W. S. Simmons, employees of the street department; Frank Kiefer and George Blix of the fire department; Ralph Dodsworth and Mr. Lippelman, Viola Carlson and Ernestine Lyon of the public service department; Joe Rothstein and Mrs. E. H. Collage, volunteers; Mrs. Wernette, who represented the P. T. A. Federation; Miss Amelia

Weisling, an employee in the city manager's office; and Mrs. Fairfield, wife of Captain Ed Fairfield of the fire department.

Those who were directing the work declared that much credit should be given to Mr. McGrew of the Broadway Garage, who generously donated the use of a truck, losing its service for about a week—no small contribution. They also mentioned the beautiful ferns which came from the old Pirtle place for the decoration of the float.

Because of the scarcity of flowers in private gardens practically all that were used on the float had to be purchased, the cost totaling about \$300, which was donated by the business men of the city. Had it been necessary to hire the labor and pay for all the materials which entered into the production of Glendale's entry it would have cost in the neighborhood of \$1500.

Burbank also sent a very beautiful float of pink and white carnations, the design (a huge key on a green background) indicating that she intends to unlock the industrial problems of the valley.

Catalina also had a clever, characteristic float on which "Yellowtail John" was conspicuously hauling in big fish, before an audience of bathing-suited girls, the float being trimmed with the growths native to Catalina.

Redondo was represented by a hydroplane made entirely of kelp.

Pasadena also had excellent designs beautifully executed. Its Chamber of Commerce for example was represented by a big derrick showing it is a booster and out to elevate the town. Pasadena High had floats for each of its classes, the freshmen winning much applause with a float representing a baby buggy carrying two members of the class dressed as infants, attended by a nurse and by a troop of playmates dressed like little folks.

There were so many floats it would be impossible to describe them all. It was a fine show which will sustain the worldwide reputation of the Pasadena Rose Tournament and because it was so good Glendale feels the prouder to bring home first honors.
